

**Inbound Logistics
Names Robocom Systems International
To the Top 100 List of Logistics IT Providers for 2012**

Farmingdale, NY, June 4, 2012. Robocom Systems International, a global provider of Supply Chain Execution Software today announced that the company has again been selected by *Inbound Logistics* to the Top 100 List of Logistics IT Providers.

Every year, Inbound Logistics editors recognize 100 logistics IT companies that support and enable logistics excellence. Drawn from a pool of more than 300 companies, using questionnaires, personal interviews, and other research, Inbound Logistics selects the Top 100 Logistics IT Providers who are leading the way in 2012. Editors seek to match readers' fast-changing needs to the capabilities of those companies selected. All companies selected reflect leadership by answering Inbound Logistics readers' needs for simplicity, ROI, and efficient implementation.

Felecia Stratton, Editor, *Inbound Logistics* said, "How does a big company expand markets and compete with more entrenched competitors? How does a small company compete with a larger company? How can today's business logistics managers boost supply chain performance and customer service while cutting overall logistics costs? By utilizing the best in logistics technology. Inbound Logistics editors selected Robocom Systems International for its consistent ability to deliver innovative solutions empowering logistics and supply chain excellence."

Fred Radcliffe, President of Robocom said, "We are pleased to have been once again recognized by *Inbound Logistics* as one of the Top 100 Logistics IT Providers for 2012. Our products improve accuracy, increase productivity, reduce transportation costs and provide essential information to Supply Chain Managers and Executives. This award from *Inbound Logistics* confirms that our effort to deliver software that solves supply chain execution problems while reducing operating costs has been recognized."

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL's educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com
