

**Inbound Logistics Names  
Robocom Systems International  
To the Top 100 List of Technology Providers for 2009**

**Farmingdale, NY, May 4, 2009** - Robocom Systems International, a global provider of Supply Chain Execution Software today announced that the company has been selected by Inbound Logistics to the Top 100 List of Logistics IT Providers.

Every April for the past decade, *Inbound Logistics* editors recognize 100 logistics IT companies that support and enable logistics excellence. Drawn from a pool of more than 500 companies, using questionnaires, personal interviews, and other research, *Inbound Logistics* selects the Top 100 Logistics IT Providers for leading the way in 2009. Editors seek to match readers' fast-changing needs to the capabilities of those companies selected. All companies selected reflect leadership by answering *Inbound Logistics* readers' needs for simplicity, ROI, and efficient implementation.

Felecia Stratton, Editor, Inbound Logistics said, "*Inbound Logistics* readers face complex, demanding challenges: matching demand to supply and aligning their operations to support that business process evolution; speeding and reducing inventory; and managing complete visibility of products from one end of the supply chain to the other. Logistics technology has become more than an enabler. For many, it has become the pathway to supply chain excellence and a lifeline to enterprise survivability. *Inbound Logistics* is proud to honor *Robocom Systems International* as a 2009 Top 100 Logistics IT Provider for excellence

in providing solutions that answer our readers' needs for quick ROI, while still maintaining ease of use and efficient implementation."

Fred Radcliffe, President of Robocom said, "We are pleased to have been recognized by Inbound Logistics as one of the Top 100 Logistics IT Providers for 2009. Over the past twelve months we have made many enhancements to our solutions including the integration of our Labor Management System and Voice Picking Solutions. This award from Inbound Logistics confirms that our work in delivering solutions with rapid ROI (Return on Investment) and operational excellence has been recognized."

**About Inbound Logistics** - *Inbound Logistics* is the pioneering publication of demand-driven logistics practices, also known as supply chain management. *IL's* educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at [www.inboundlogistics.com](http://www.inboundlogistics.com)

**About Robocom** - Robocom is a leading supplier of supply chain execution software and services, founded in 1982, with offices in New York, Toronto, Minneapolis and Europe. Robocom's core products include industry-specific Warehouse Management Systems, a Transportation Management System, a separate Voice Picking Module and a Labor Management System. We enhance, implement and support robust, flexible, and efficient software that performs as predicted and yields the positive business results your enterprise demands.
